

**PERFORMA™**  
**EXTRUDED 14% RACE HORSE RATION**  
**(600666)**

**Who Uses:**

Trainers of performance horses requiring a high fat, low carbohydrate diet. Horse owners wishing to vary the texture of their horses' diet, mix performance with other feed forms.

**Description**

An extruded feed, intended for performance horses, providing more digestible energy and with less risk of digestive upset.

<b>Features</b>	<b>Benefits</b>
<ul style="list-style-type: none"> <li>• Available in extruded form only.</li> </ul>	<p>Increases the nutrient availability and provides a readily available source of energy.            Slows down the eating process reducing the risk of over consumption.            Reduces feed waste and extends shelf life of feed.            Decreases incidence of feed allergy.</p>
<ul style="list-style-type: none"> <li>• Contains 7% fat.</li> </ul>	<p>Concentrated form of energy which complements the starch of grains to provide readily available energy. Added fat enhances hair coat lustre.</p>
<ul style="list-style-type: none"> <li>• Contains 14% crude protein.</li> </ul>	<p>Provides essential amino acids for the “performance” horse.</p>
<ul style="list-style-type: none"> <li>• Contains added levels of minerals and vitamins.</li> </ul>	<p>To provide the needed nutrients for performance and recovery.</p>
<ul style="list-style-type: none"> <li>• Oil/molasses coating</li> </ul>	<p>Increases palatability.</p>

**Directions For Use:**

Feed ½ to 1 ½ kg of Performa™ per 100 kg body weight per day, with good quality dust-free hay. The actual amount fed will depend on condition, level of activity or work performed, and the quality of hay or grass.
