

Summit

(605630)

Who Uses:

A horse owner/trainer requiring a high quality blended ration with very little molasses suitable for both performance and pleasure horses.

Description

This low molasses texturized ration contains elevated fat levels for added calories, and improved performance. It contains a higher level of fibre compared to most textured diets for improved digestive health. Summit can be fed in to pleasure, growing horses and performance horses. It offers flexibility and versatility to all horse disciplines.

Features	Benefits
<ul style="list-style-type: none">• Elevated fat levels from addition of vegetable oil.	Increases endurance energy for peak performance.
<ul style="list-style-type: none">• Increased fibre level.	Makes a safe feed that promotes good digestive health.
<ul style="list-style-type: none">• Low level of molasses	Reduced sugar content.
<ul style="list-style-type: none">• Contains yeast culture (yea-sac 1026).	Yeast culture works as a digestive aid and gut stabilizer reducing digestive upsets and maximizing digestion.
<ul style="list-style-type: none">• Flexibility/versatility.	One feed offers simple practices for many feeding challenges.
<ul style="list-style-type: none">• Higher level of Vitamin E	A powerful antioxidant to enhance immune response and improve tissue regeneration after strenuous exercise.
<ul style="list-style-type: none">• Contains chelated trace minerals.	For increased bioavailability of those nutrients essential for immune response, hoof health, bone and cartilage development.

Directions for Use:

Feed ½ to 1 ½ kg of Summit per 100 kg of body weight according to the amount of work performed by the horse, the condition of the horse, and the quality of the hay or grass. Contact your Masterfeeds representative for more information.
