

**"Never been better"**

Barry Osterndorff has a herd of 120 beef cows near Elmwood, Ontario. In the past he periodically has used the Crystalyx Brand, Mineral-lyx Supplement, from his local Masterfeeds Dealer, B & L Farm Services, Chesley, Ontario. Taking into consideration that Mineral-lyx is known for its nutrient density and its palatability, Barry decided to use the Hubbard product all year round in 1999. Great results! As feeding Mineral-lyx allows for feeding straw every other day Barry had the opportunity to sell some extra hay left after the winter feeding period. Just another advantage for using the product Mineral-lyx.

Barry Comments:

"I have never seen my cows in such good condition. Calving in 2000 has never been better. Calves are being born in a shorter calving interval, compared to when I wasn't using Mineral-lyx year round."

Crystalyx Brand Supplements is solely distributed in Ontario by Masterfeeds and their Dealerships. Masterfeeds and B&L Farm Services continue "go with the brand you know, Crystalyx Brand Supplements".
