

Who Uses: **Show-Stopper Texturized Show Cattle Ration (500312)**

Producers who wish to feed a premium show cattle ration. Purebred breeders fitting cattle for sale and 4-H groups would benefit from the use of this ration.

Description

Show-Stopper Texturized Show Cattle Ration is a 14% protein texturized ration intended to be fed up to 5 kg per head per day. It is a concentrated formula of selected ingredients, containing high levels of quality protein, minerals and vitamins intended to produce a shiny, healthy hair-coat.

Features

- Contains 14% crude protein with rumen undegradable (UIP) protein. Features AminoPlus bypass soymeal.
- Selected ingredients and consistent formulation. All vegetable-based ration.
- Higher energy.
- Contains vegetable oil and linseed oil meal.
- Contains Zinpro.
- Highly fortified with minerals and vitamins.
- Texturized (rolled grains, molasses) ration.
- Contains Yea-sacc.
- Made with Beet Pulp.

Benefits

- High level of protein of high bypass value and with an optimum amino acid profile. Young, lean, growthy cattle have higher requirements for bypass protein of optimum amino acid balance.
- Enhances palatability and promotes intake.
- Provides required energy for efficient growth and feed conversion.
- Enhances hair coat bloom.
- Helps maintain hoof integrity.
- Helps improve growth and resistance to stress and disease.
- Improved palatability.
- Helps to stabilize rumen, particularly during periods of stress such as when cattle are being transported to shows.
- To maintain high fibre value of diet to reduce digestive upset.

Feeding Recommendations

Growing heifers: Provide **Show-Stopper Texturized Show Cattle Ration** at 0.5 to 1.25 kg per 100 kg bodyweight per head per day.

Growing steers & bulls: Provide **Show-Stopper Texturized Show Cattle Ration** at 0.75 to 1.5 kg per 100 kg bodyweight per head per day.

Adult cattle: Provide **Show-Stopper Texturized Show Cattle Ration** at up to 5 kg per head per day.
