- Added L-Carnitine
- Vitamin C

Benefits

- Improved libido and semen characteristics.
- Improved semen quality.
- Improved semen quality and quantity.
- Enhanced fertility especially during periods of heat stress.

...A tradition of quality

MetaBalance Boar C.A.R.E. is a pelleted feed fed to mature boars 6.5 months of age and older.

Boar Weight (kg)	Feeding Rate (kg/day)
Less than 135	2.00
135 – 180	2.25
180 – 225	2.50
225 – 275	2.75
More than 275	3.00

Adjust the feeding rate of breeding boars on an individual basis to ensure boars are kept healthy and in good condition. Feeding rate needs to be adjusted to account for seasonal effects on maintenance.

MetaBalance Boar C.A.R.E. Top-Dress: Top-dress at the rate of 110 grams (1 – 8 oz cup) per boar per day.
