an **Alltech®** company

MasterCalf™

Reaching genetic potential
with MasterCalf.

THREE PRODUCTS FOR EARLY
DAIRY FEEDING SUCCESS:

1. **MasterCalf™**
MILK REPLACER

2. **MasterCalf™**
24% STARTER

3. **MasterCalf™**
20% GROWER

The right start to a healthy future. Start calves with MasterCalf Milk Replacer with 26% protein – 100% from milk sources – to promote rapid early growth. Follow up with 24% MasterCalf Starter and 20% MasterCalf Grower for a staged feeding program. Provide the nutrition calves need for optimal performance and health – get your calves off to a healthy start with proven MasterCalf results.

3. **MasterCalf™**
20% GROWER

THE THIRD PHASE FOR GROWTH MOMENTUM
AND MAXIMIZING GENETIC POTENTIAL

Good growth and health is most important during the calf's first three months of life. The faster the rumen develops, the faster the calf grows. Research has demonstrated that the rate of rumen development is related to the type and quality of readily fermentable carbohydrates. 20% MasterCalf Grower continues optimal growth in weight and frame and average daily gain. 20% MasterCalf Grower provides all critical needs for helping a healthy weaned calf become a dairy cow with more profit potential.

TEXTURIZED FORMULATION

Enhances the acceptability of future creep growing rations at an older age.

MasterCalf™

20%

MEDICATED HEIFER GROWER
(TEXTURIZED)

FOR CALVES AGES
12 WEEKS – 24 WEEKS

Masterfeeds 20% Medicated Heifer Grower (texturized) contains high quality ingredients to extend the benefits achieved with MasterCalf 24% Starter, providing the nutrition to maintain growth momentum and achieve genetic potential.

FEEDING DIRECTIONS:

Feed 1.0 kg for each 100 kg bodyweight. This will provide 0.5 mg/kg decoquinat per kg of bodyweight per day. Feed continuously for at least 28 days during periods of coccidiosis when coccidiosis is likely to be a hazard. Follow an on-farm feeding program provided by your Masterfeeds Account Manager. Feed as a complete feed to cattle along with forage. Changes to the feeding program should be made gradually for adaptation to take place.

FEATURES & BENEFITS:

Contains 20% all vegetable protein. Supplies the appropriate amount of protein level to maintain growth momentum.

High level of digestible energy. Supplies the appropriate energy required for rapid rumen development and optimum growth rates.

Contains a digestible fiber source. Stimulates development of the rumen.

Highly fortified with essential minerals and vitamins. Enhances growth rate and supports the immune system.

Medicated. Aids in the prevention of coccidiosis.

This feed contains added Selenium at 0.3 mg/kg.

GUARANTEED ANALYSIS

Crude Protein (minimum).....	20.4%
Crude Fat (minimum)	4.3%
Crude Fiber (maximum).....	8.0%
