**SUMMIT**<sup>™</sup>  
DAIRY PROGRAM

# ROBO-MAX<sup>™</sup> 18% (ROBOT PELLETT)

FOR DAIRY COWS  
USING AN AUTOMATED  
FEEDING SYSTEM

A pellet that will keep them  
coming back.

*Masterfeeds Robo-Max 18% Robot Pellet is designed to enhance the drivability of cows to robot milkers. With highly palatable ingredients, a unique flavor profile and excellent pellet quality characteristics, using Robo-Max 18% will mean shorter fetch lists with more opportunities to harvest milk.*

*Masterfeeds – the experts in robot milking:*

- *Experience: we've been feeding robots in Canada since 2000.*
- *Selection: There are many options available in the Robo-Max line up including an 18% and 20% protein pellet or a 30% option to be mixed with on-farm grains and a supplement for high producing cows.*
- *Quality: Meet your production goals with a dedicated staff, quality ingredients, and HAACP approved manufacturing facilities.*

ROBO-MAX™

ROBO-MAX  
18%  
(ROBOT PELLETT)FOR DAIRY COWS  
USING AN AUTOMATED  
FEEDING SYSTEM

Robo-Max 18% Robot Pellet is a highly palatable feed that is intended to be fed in dairy cows through an automated feeding system. Fed in conjunction with a balanced partial mixed ration, Robo-Max 18% provides supplemental energy and protein to encourage maximum visits to automated milking/feeding stations.

#### DIRECTIONS FOR USE:

Feed Robo-Max 18% Robot Pellet at a rate sufficient to deliver 1.0 to 3.0 kg per visit.

Feeding speed should be adjusted in conjunction with average milking speed, but should fall into the range of 300 to 400 grams per minute.

Successful feeding in robotic systems is entirely dependent on having a properly balanced bunk recipe.

Follow an on-farm feeding program provided by your Masterfeeds Account Manager.

#### FEATURES & BENEFITS:

**Hard pellet.** Designed for optimal flow and reduced fines in automated feeding systems.

**High quality, palatable ingredients with a unique blend of flavors.** Specifically formulated for optimum intake, while avoiding issues associated with acidosis. Keeps them happy for the entire milking. This means fewer kicked-off milkers!

**All natural protein with a specific balance of by-pass protein and amino acids.** Ensures palatability and performance.

**High quality fermentable fibre.** Provides more digestible fibre as fermentable sources of energy. This keeps her milking with good feet and components, while helping her to breed back in shorter days.

**Rumen conditioner.** Helps in preventing sub-acute acidosis and maintaining optimum rumen pH to maximize health and performance.

**Supplemented vitamins and minerals.** Ensures cows are receiving nutrients according to their production.
