OPTIMAL NUTRITION FOR ALPACAS & LLAMAS

ALPACA & LLAMA RATION

Masterfeeds Heritage 15% Alpaca and Llama Ration (pellet) contain high quality ingredients in a palatable formulation designed to meet the specific nutritional requirements of alpacas and llamas. Contains high levels of essential vitamins, such as A, D, E, and chelated zinc to help maximize muscle and fiber growth.

FEEDING DIRECTIONS:

Masterfeeds Heritage 15% Alpaca & Llama Ration Pellets should be fed as a nutritional supplement to mature animals at 0.5 kg per head per day and from 0.25 to 0.5 kg per head per day to growing animals. Feed along with a good quality legume or mixed forage. Alpaca and/or Llamas requiring additional energy during cold weather, vigorous activity or lactation should be fed some additional grain along with this product. For more detailed information, contact your Masterfeeds Account Manager.

FEATURES & BENEFITS:

Specifically balanced.

The correct levels of critical nutrients, such as vitamins A, E, minerals, and Selenium help to maximize genetic potential for growth and fiber production.

Pelleted.

Easy to handle, improved consumption and results in less feed wastage.

Contains Zinc Methionine.

Zinc is essential for excellent skin condition and luxurious hair coat. Added zinc methionine has shown a reduction in the problems associated with foot rot and improved immunity.

This feed contains added Selenium at 2.1 mg/kg.

WHITETAIL

DEER BLOCK

FOR DEER/ELK RANCHERS,
LANDOWNERS &
BACKYARD FEEDERS

DEER BLOCK

Sweetlix Whitetail Deer Block provides supplemental protein, energy, minerals and vitamins necessary for antler growth. This highly palatable block keeps deer returning on a regular basis.

FEEDING DIRECTIONS:

Sweetlix Whitetail Deer Block should be self-fed year-round to growing and breeding deer in their natural habitat. It should be positioned in areas frequented by deer such as trails, rubs and watering spots. Sweetlix Whitetail Block is scientifically balanced to supplement deer's natural vegetation by providing protein, minerals, vitamins and energy necessary for optimal growth, antler and bone development and reproduction.

Consumption of this product will vary according to the deer's body weight and the quality and quantity of available natural vegetation. Intake of this product by growing and breeding deer should be at the rate of ½ to 1 kg per head per day.

FEATURES & BENEFITS:

Highly palatable.

Naturally attracts deer.

Compressed block.

Easy to handle, improved consumption and results in less feed wastage.

High energy and protein levels, fortified with corn and molasses.

Extra nutrition boost for improved production.

Added minerals and vitamins.

Necessary for antler development, growth, and reproduction. Helps maintain key herds in the peak nutritional state necessary for trophy deer.

FEEDING TIP:

The use of this deer product is intended for wildlife conservation practices only. Do not handle this deer product in a way that human scent will be left on the block.

This feed contains added Selenium at 3.1 mg/kg.

RACK™ DEER BLOCK

FOR DEER/ELK RANCHERS,
LANDOWNERS &
BACKYARD FEEDERS

DEER BLOCK

Sweetlix Rack Deer Block provides essential protein, minerals and energy necessary for antler development, growth and reproduction. Rack Deer Block is ideal for maintaining key herds in the peak nutritional state necessary for trophy deer.

FEEDING DIRECTIONS:

Sweetlix Rack Deer Blocks should be offered year-round. They are formulated to provide essential supplemental nutrients and minerals needed by deer. Deer blocks may be buried and covered with loose soil. Deer will find the blocks and come to them as they would a natural salt lick. If blocks are to be fed in areas where domestic livestock are pastured, place the blocks in rough terrain areas where cattle do not normally graze.

Deer watering areas are ideal locations to place blocks. Do not feed additional salt when using the Rack Deer Block.

For additional information, please contact your Masterfeeds Account Manager.

FEATURES & BENEFITS:

Highly palatable. Naturally attracts deer.

Bio-degradable box. Easy to handle and store.

Supplies energy and minerals. Result in bigger, healthier deer.

Extra energy. Beneficial to antler growth.

NOTE:

The use of this deer product is intended for wildlife conservation practices only. Do not handle this deer product in a way that human scent will be left on the block.

This feed contains added Selenium at 2.5 mg/kg.

GAME BIRD & FOWL BLOCK

FOR ALL CLASSES
OF GAME BIRDS

GAME BIRD & FOWL BLOCK

Sweetlix Game Bird & Fowl Block is designed especially for the needs of wild fowl. Made with wholesome grains, minerals and vitamins critical for growth and egg production, Sweetlix provides essential nutrients.

FEEDING DIRECTIONS:

Provide free-choice to wild birds. It may be necessary to provide more than one block for access purposes.

Place blocks in an appropriate feeder or on the ground away from excessive moisture.

FEATURES & BENEFITS:

Compressed block.

Easy to handle, improved consumption and results in less feed wastage.

High quality protein. Includes essential amino acids methionine and lysine.

Healthy whole grains. Provides energy.

Added oyster shell. Aids in proper digestion.

Satisfies bird's natural pecking tendencies.

Can help alleviate aggressive behaviour between birds.

NOTE:

Store blocks in a cool, dry area away from rodents and insects.

Masterfeeds Heritage 16% Rabbit Ration (pellet) is formulated with quality ingredients, including high quality alfalfa meal to help provide optimal nutrition for all life stages.

FEEDING DIRECTIONS:

Feed to rabbits in all stages of growth as well as to breeding stock. Limit feed to breeding stock to keep animals in a lean, trim, but not thin condition. The feeding of some long-stemmed hay is a good practice.

FEATURES & BENEFITS:

Complete and balanced products.

Will meet the rabbits' nutrient requirements for all phases of life.

Pelleted.

Easy to handle, improved consumption and results in less feed wastage.

Balanced Fiber, Energy and Protein Levels.

Fiber, energy and protein are provided in the proper proportions for improved production.

Contain high quality alfalfa meal.

A high quality protein source that enhances palatability.

This feed contains added Selenium at 0.1 mg/kg.

GUARANTEED ANALYSIS

Crude Protein (minimum).....	16.0%
Crude Fat (minimum)	2.5%
Crude Fiber (minimum)	12.0%
Crude Fiber (maximum).....	15.0%
Calcium (actual).....	0.9%
Phosphorus (actual)	0.7%
Sodium (actual)	0.2%
Vitamin A (minimum)	20,000 IU/kg
Vitamin D (minimum)	2,000 IU/kg
