 REPLACEMENT EWE LAMBS
 & MEAT LAMBS

LAMB MILK REPLACER

Grober Lamb-Gro 22:22:25 Lamb Milk Replacer is an economical choice designed to be fed after three days of age to replacement ewe lambs and meat lambs.

MIXING DIRECTIONS:

1. Weigh 190 g of powder per litre of solution.
2. Mix with 0.5 litres warm water (60°C) using a whisk, for three minutes.
3. Add 0.45 litres cold water and mix again (total 1 litre).
4. Feed the milk replacer solution at body temperature (approximately 38 to 40°C)

Lamb-Gro can also be used with automatic milk distribution systems, which mixes thoroughly the powder with water at 42 to 45°C.

FEEDING SCHEDULE:

This schedule is only a guideline and should be adjusted to the needs of the lamb. Approximately 8 kg of milk replacer will be consumed per kid. The newborn lamb should receive 150 ml/kg bodyweight of colostrum (approximately 600 ml). The sooner lambs receive colostrum the more effective the absorption of antibodies (protection against disease). If maternal colostrum is not available or to protect against disease transfer use a good quality colostrum replacer.

Lamb Age	Feedings per day	Mixed Milk Replacer Solution per Feeding (mls)
day 1 (colostrum)	4	200
days 2-4	4	200
days 5-7	4	300
days 8-14	3	500
weeks 3-4	3	600
weeks 5-6	2	700
weeks 7-8	1	700

FEEDING TIPS:

1. Frequent feeding of small amounts will decrease digestive upsets.
2. Reconstituted Lamb-Gro may be refrigerated up to 24 hours. Discard unused portion after 24 hours.
3. Free-choice milk is served at room temperature; do not leave lamb bar empty for more than two hours.
4. Clean ALL feeding utensils and equipment after each feeding: rinse in lukewarm water, wash with a detergent in hot (80°C) water, rinse with clean water (ideally a 5 to 10% bleach solution daily) and dry thoroughly with a clean towel.
5. Fresh, clean water should be available at all times.
6. When lambs are consuming approximately 120 to 150 g of concentrate ration per day, weaning may begin. A gradual weaning process will reduce stress and weight loss at that time.

This feed contains added Selenium at 0.3 mg/kg.

GOALMAKER™ LAMB MILK (MINI-PELLET)

FOR EARLY WEAN LAMBS

Masterfeeds GoalMaker Lamb Milk (mini-pellet) can help early wean lambs without weaning set-back. Early weaning is key to reducing health problems present during milk feeding and lowering milk replacer cost. Feed this product along with normal feedings of milk or milk replacer as the first dry feed or mixed into the starter feed.

FEEDING DIRECTIONS:

Feed as the sole ration along with milk from the ewe or milk replacer from three days of age until the lamb is 10 kg in weight or eight weeks of age. Total amount of feed consumed during this period will be approximately 0.5 kg.

FEATURES & BENEFITS:

Reduced need for milk replacer. Reduces feeding cost and helps with the transition to Masterfeeds Goalmaker 18% Lamb Starter.

Cold pelleting process, no steam. Durable pellets without fines; Protects vitamin activity and the effectiveness of several nutrients that are sensitive to processing conditions.

High milk, fat and energy content. Lambs can be started on the feed while suckling.

Successfully rear orphans and improve health. Ideal for weight gain in lighter weight lambs and helps rehabilitate sick lambs.

High intensity sweetener. Stimulates feed intake, nutrient uptake and palatability.

This feed contains added Selenium at 0.3 mg/kg.

20% Lamb Starter

CREEP FEED

Formulated as a Palatable Feed to Start New Lambs

Successful nutrition programs require planning. Blueprint Lamb Starters are a unique and effective approach to Sheep nutrition, designed with cutting-edge nutrition technologies for today's advanced ovine genetics.

Blueprint is formulated with Alltech's Total Replacement Technology (TRT) – organic trace minerals that support absorption, retention and utilization in sheep. Alltech has demonstrated through Nutrigenomics that modern management of mineral nutrition can take place at significantly lower inclusion levels, while helping support overall animal performance.

Blueprint, formulated with Alltech's solutions and manufactured by Masterfeeds, is designed to work synergistically to help lambs reach their full genetic potential.

FEEDING DIRECTIONS:

Feed as part of a complete feed to lambs along with forage.

Changes to feeding program should take place gradually for adaptation to take place.

Provide adequate clean fresh water.

Contact your Masterfeeds Account Manager for specific feeding directions.

FEATURES & BENEFITS:

Total Replacement Technology.

100% organic trace minerals for optimum growth, development and immunity.

Contains Actigen[®].

Promotes gut health and performance naturally.

Optimum Vitamin E and Organic Selenium levels.

Optimum performance and prevention of white muscle disease and increased immunity.

High quality protein.

High quality protein from a variety of sources.

Highly palatable.

Promotes increased intake.

THE BLUEPRINT FOR PERFORMANCE THROUGH NUTRITION:

Highly efficient trace mineral fortification

Promote reproductive performance

Support the body's natural defense system

Support health antioxidant status

GOALMAKER™
16%
**HP LAMB GROWER/
 FINISHER**

**FOR FINISHING
 HEAVY LAMBS**

Masterfeeds GoalMaker 16% HP Lamb Grower/Finisher (pellet) is a complete palatable feed for finishing heavy lambs. No additional roughage source needs to be fed with this feed. Contains no added copper.

FEEDING DIRECTIONS:

Feed this feed continuously as the sole ration while lambs are in the feedlot.

This feed contains added Selenium at 0.3 mg/kg.

FEATURES & BENEFITS:

16% protein.

High protein to promote frame development.

Contains ammonium chloride.

Helps prevent and avoid problems with urinary calculi.

Ideal mineral levels.

Formulated specifically for sheep to maximize growth and avoid copper toxicity.

Optimum vitamin E and Selenium levels.

Optimum performance and prevention of white muscle disease.

30%
SHEEP SUPPLEMENT

**FOR GROWER/
 FINISHER LAMBS**

Masterfeeds GoalMaker 32% Sheep Supplement is a supplement designed to be mixed with on farm grains to produce a balanced grow/finish ration. Contains no added copper.

FEEDING DIRECTIONS:

Mix 200 kg of 30% Sheep Supplement with 800 kg of rolled barley or oats to make a complete ration. Feed this ration to grower and finisher lambs. Feed this ration along with good quality forage. Provide clean, fresh water at all times. For more detailed feeding information consult your Masterfeeds Account Manager.

FEATURES & BENEFITS:

30% Protein.

Protein level matched to on farm small grains to produce a 13% ration.

Contains ammonium chloride.

Helps prevent and avoid problems with urinary calculi.

Ideal mineral levels.

Formulated specifically for sheep to maximize growth and avoid copper toxicity.

Optimum vitamin E and Selenium levels.

Optimum performance and prevention of white muscle disease.

Pellets.

Particle size to match with on farm grains while optimizing intake.

This feed contains added Selenium at 3.0 mg/kg.

TRT

SHEEP PREMIX FOR THE FLOCK

Masterfeeds GoalMaker TRT Sheep Premix is a complete palatable premix for sheep. Contains no added copper.

FEEDING DIRECTIONS:

Masterfeeds GoalMaker TRT Sheep Premix is designed to provide sheep with a high level of vitamins, minerals and salt while feeding in a dry lot. Mix with on-farm grains to provide 15 grams of premix to young ewe lambs, 25 grams of premix to dry ewes and 33 grams of premix to lactating ewes.

FEATURES & BENEFITS:

Balanced.

Mineral levels are balanced to match the most popular grain and forage feeding programs.

High quality mineral sources.

Ingredients used in this product are highly available to the animal providing superior performance.

Total Replacement Technology

(TRT). Achieved through the inclusion of chelated trace minerals in the form of Bioplex® and Sel-Plex®, TRT replaces all inorganic sources of trace minerals and Selenium. Alltech Minerals are readily absorbed, stored and utilized by the ewe helping her meet nutritional requirements, maximize growth, achieve optimal health and avoid copper toxicity.

Optimum vitamin E and Selenium levels.

Optimum performance and prevention of white muscle disease.

Contains Molybdenum.

Helps prevent copper toxicity.

This feed contains added Selenium at 24.0 mg/kg.

16% GOAT RATION (TEXTURIZED)

COMPLETE FEED FOR MILKING DOES

Masterfeeds GoalMaker Goat Ration (texturized) is a complete palatable feed for milking does. It is a high energy feed formulated using natural protein ingredients and a proper balance of vitamins and minerals for milking does consuming hay/haylage and/or corn silage.

FEEDING DIRECTIONS:

Feed as a complete feed to goats along with forage. Changes to the feeding program should be made gradually for adaptation to take place.

FEATURES & BENEFITS:

16% protein.

Ideal protein when fed with average hay/haylage or excellent quality hay/haylage and corn silage.

Flaked corn.

Textured feed with molasses provides high energy and palatability.

Ideal vitamin and mineral levels.

Optimum performance and increased immunity.

Contains organic (amino acid complex) trace minerals.

Improved biological activity to ensure optimum health and performance.

High quality ingredients.

Consistent quality assures top performance and doe acceptability.

Molasses added.

Increases palatability and reduces dust and sorting.

This feed contains added Selenium at 0.30 mg/kg.

TRT
GOAT PREMIX

VITAMIN & MINERAL PREMIX
WITH SALT FOR GOATS

Masterfeeds GoalMaker TRT Goat Premix is a highly fortified vitamin and mineral premix for lactating and dry does used to create on-farm rations using local grains and protein ingredients, fed free-choice or top-dressed.

FEEDING DIRECTIONS:

Masterfeeds GoalMaker TRT Goat Premix is designed to provide goats and goats with kids a high level of vitamins, minerals and salt while feeding in a dry lot. Mix with on-farm grains, and feed the resulting grain so as to provide 43 grams per day of this premix.

FEATURES & BENEFITS:

Ideal levels of vitamins and minerals.
For optimum performance and health.

Total Replacement Technology (TRT).
Achieved through the inclusion of chelated trace minerals in the form of Bioplex® and Sel-Plex®, TRT replaces all inorganic sources of trace minerals and Selenium. Alltech® Minerals are readily absorbed, stored and utilized by the doe helping her meet nutrition requirements, maximizing growth, and achieving optimal health.

Contains salt. *Conveniently supplies all required salt when fed as directed.*

Contains flavouring agent and dry molasses.
Enhance palatability and promotes intake.

FEEDING TIPS:

1. Use to balance Total Mixed Ration feeding programs.
2. Build your own ration: Mix 35 kg of Goal Maker Goat Chelated Premix with 265 kg soybean meal and 700 kg corn and/or mixed grain to make a complete ration.

This feed contains added Selenium at 17.0 mg/kg.

MULTI-BLOCK SUPPLEMENT

FOR COWS, SHEEP & GOATS ON GOOD QUALITY FORAGE OR PASTURE

LOW MOISTURE BLOCK

Masterfeeds Rite-Lix Multi-Block Supplement is a 13% all natural protein supplement block for cows, sheep and goats formulated to be fed with good quality forage or pasture.

WHO USES:

Rite-Lix Multi-Block Supplement is for all livestock needing supplemental protein when feeding copper is a concern.

No added copper. Safe for sheep. Suitable for mixed specie feeding.

FEEDING DIRECTIONS:

Rite-Lix Multi-Block Supplement is designed for self-feeding to grazing beef cattle, sheep and goats. Place containers in dry spots near loafing areas and watering locations. Provide a minimum of two (2) containers in each lot or pasture to ensure proper accessibility. Free-choice consumption will depend on climate, size of the animals fed, as well as quality, source and availability of other feeds. Feed at the rate of one container for every 20 to 30 head. Cattle typically consume between 125 and 500 grams per head daily. Sheep and goats typically consume between 30 and 120 grams per head daily. Rite-Lix Multi-Block Supplement contains no salt. Provide salt free-choice.

Low Moisture molasses block. Hard texture does not allow cattle to bite, chew or over consume supplement.

Now with added vitamin E. Promotes immune function, reproductive health and enhance stress-fighting ability.

Contains Sel-Plex® and Bioplex®. Organic Selenium and organic trace minerals to help support the reproductive and immune systems and improve health.

Added yeast culture. Proven to increase feed gain, average daily gain and fiber digestibility.

FEATURES & BENEFITS:

All natural plant protein. Contains no urea or animal bi-products and is suitable for all classes and stages of cattle, most natural feeding programs.

13% protein from several sources. Helps livestock utilize forages and meet protein requirements.

1:1 calcium to phosphorus inclusion. Supplements good quality and legume forages.

Trace mineral fortification. Ensures trace mineral requirement of livestock are met.

This feed contains added Selenium at 4.4 mg/kg.

LOW MOISTURE BLOCK

The Sweet Taste of Success.

Supplements can only provide predictable performance if they are consumed consistently. Sweetlix delivers balanced levels of nutrients in regular daily doses and utilizes high quality ingredients for increased palatability and optimum animal performance. Unlike some blocks, Sweetlix pressed blocks are highly palatable as well as weather-resistant.

SWEETLIX® PRODUCT LINE UP:

3-IN-1 A multi-purpose, free-choice, highly palatable vitamin and mineral supplement block for **beef cattle** and/or **horses**. This block is superior to trace mineral salt blocks and can be placed directly in pasture.

10% PHOS MINERAL/VITAMIN A supplement mineral for **beef cattle**.

EQUINE PASTURE & HAY BALANCER

This convenient free-choice supplement block for **horses** and a mineral, vitamin and protein supplement in one. Ideal for supplementing hay and limited pastures, it delivers 20% protein from all natural sources. This is a weather-resistant block and can be placed directly in pastures or paddocks with horses - no shelter needed.

ALL-IN-ONE This convenient highly palatable free-choice protein supplement block for **sheep** and **goats** is a mineral, vitamin and protein supplement in one. This block is specifically designed to supplement small ruminants consuming low quality forages and allows for optimum growth and reproduction. Safe for cattle, goats and sheep. Ideal in situations where copper is a concern when species are co-mingling.

WHITETAIL DEER BLOCK Formulated to provide **deer** with supplemental protein, energy, minerals and vitamins necessary for antler growth.

GAME BIRD & FOWL BLOCK Designed especially for the needs of **wild fowl**. Made with wholesome grains, minerals and vitamins critical for growth and egg production, Sweetlix provides essential nutrients.

ALL-IN-ONE FOR SHEEP & GOATS

SHEEP/GOAT BLOCK

Sweetlix All-In-One is a convenient highly palatable free-choice protein, mineral, vitamin and supplement block all in one for sheep and goats. This block is specifically designed to supplement small ruminants consuming low quality forages and allows for optimum growth and reproduction. Ideal in situations where copper is a concern when species are co-mingling.

INTRODUCTORY PERIOD:

Following a seven to 10 day acclimation period, average consumption should be 50 to 100 g for sheep and goats with unrestricted forage supplies. Position the blocks 15 to 25 meters from loafing, feeding and watering areas. Some repositioning of blocks may be necessary as animals become acclimated to the presence of the blocks. Move blocks closer to increase consumption: further away to decrease consumption. If over consumption occurs for more than two weeks and repositioning of blocks does not correct the situation, remove blocks and evaluate the overall feeding program. **Do not allow starved animals free access to this block.**

FEEDING DIRECTIONS:

Feed at a rate of one block per five to ten heads. All animals should have equal access to blocks. Timid and smaller animals need their share. Place the blocks where animals congregate. Locate blocks throughout the pasture at loafing, grazing and watering areas. Adequate distance must be maintained between blocks to prevent crowding (3 metres minimum). Feed blocks continuously along with plentiful sources of forage and clean, fresh water. Animals should not run out of blocks. When a block is two-thirds consumed, provide a new block near it. Place very small pieces in a feed pan or trough to be cleaned up. Sheep and goats should consume 50 to 100 g per head daily. Consumption of this block may vary depending upon animal body condition, quality and quantity of forages, seasonal weather conditions, and most importantly, feeding locations of blocks with respect to loafing, grazing, feeding and watering areas. Feed as the only free-choice source of salt, other minerals and vitamins.

**Net Weight 15 kg
Product #: 815994**

FEATURES & BENEFITS:

- Highly palatable supplement block for sheep consuming low quality forages**
- Specifically designed to supplement small ruminants.** Optimum growth and reproduction.
- Protein, vitamin, and mineral supplementation in one product.** No additional sources of salt or minerals required
- Delivers 20% Crude Protein from all natural sources.** Ideal for all classes of sheep.
- Convenient.** Easy to handle 15 kg block.
- Weather resistant block.** Requires no special feeders or bunks.

NOTE:

Store blocks in a cool, dry area away from rodents and insects.

This feed contains added Selenium at 6.2 mg/kg.
