CHIKPEK™

BEAK BLUNTING SUPPLEMENT
FOR POULTRY (BLOCK)

FOR PREVENTING &
CONTROLLING PECKING
VICES IN POULTRY

Promote bird welfare and
support natural behaviours.

*Pecking can be injurious and aggressive causing losses in
productivity, increases in medication costs and even mortality.*

*ChikPek is a formed block used to support the natural behavior of
birds. The non-medicated; non-toxic ingredients and nutrients used
in ChikPek are safe to feed to all life stages of poultry and do not
interfere with a flocks regular nutrition program.*

- > Helps minimize injurious pecking
- > Aids in disease control
- > Supports uniformity of the flock
- > Aids in preventing feather licking

ALL YOU DO.™

CHIKPEK™

BEAK BLUNTING SUPPLEMENT FOR POULTRY (BLOCK)

FOR PREVENTING & CONTROLLING PECKING VICES IN POULTRY

Masterfeeds ChikPek is a revolutionary feed supplement and tool, designed for preventing and controlling pecking vices in chickens and other classes of poultry. ChikPek helps blunt the beak with the continuous and mild abrasive effect it has with each peck.

WHO USES:

ChikPek blocks are used by commercial producers looking to curb injurious pecking. Can be used in floor, slat or aviary poultry systems. Suitable for broilers, layers, turkeys, ducks and geese as well as breeder birds.

FEEDING DIRECTIONS:

Place in scratch areas and locations the birds visit frequently or locations where injurious pecking is observed. Place the block in an appropriate feeder or on the ground away from excessive moisture. Each block is expected to last for six to eight weeks.

Recommended Usage:

Routine Application – 1 block / 1,000 birds
Mild Pecking Disorder – 1 block / 700 - 1,000 birds
Moderate Pecking Disorder – 1 block / 500 - 700 birds
Heavy Pecking Disorder – 1 block / 300 - 500 birds

FEATURES & BENEFITS:

ChikPek offers unique formulation and innovative technology made with conventional ingredients and nutrients to encourages continuous pecking of the block as well as visual and recreational attraction. ChikPek is non-medicated, non-toxic, economical, and a humane solution to pecking problems.

- Encourages continuous pecking of the block and helps minimize injurious pecking.
- Encourages instinctive foraging and exploratory behaviour.
- Occupies and diverts attention from other birds.
- Doesn't interfere with regular nutrition program.
- Safe to feed all life stages and classes of poultry.
