

The Sweet Taste of Success.

Supplements can only provide predictable performance if they are consumed consistently. Sweetlix delivers balanced levels of nutrients in regular daily doses and utilizes high quality ingredients for increased palatability and optimum animal performance. Unlike some blocks, Sweetlix pressed blocks are highly palatable as well as weather-resistant.

SWEETLIX PRODUCT LINE UP:

EQUINE PASTURE & HAY BALANCER

This free-choice supplement block for horses is a mineral, vitamin and protein supplement in one. Ideal for supplementing hay and limited pastures, it delivers 20% protein from all natural sources. This weather-resistant block can be placed directly in pastures or paddocks with horses – no shelter needed.

MEAT MAKER®

This protein block for goats contains added Bioplex® organic trace minerals that are easily absorbed and readily metabolized for optimal nutrition.

* None added.

ALL-IN-ONE *This convenient highly palatable free-choice protein supplement block for sheep and goats is a mineral, vitamin and protein supplement in one. This block is specifically designed to supplement small ruminants consuming low quality forages and allows for optimum growth and reproduction. Safe for cattle, goats and sheep. Ideal in situations where copper is a concern when species are co-mingling.*

WHITETAIL DEER BLOCK *Formulated to provide deer with supplemental protein, energy, minerals and vitamins necessary for antler growth.*

RACK™ DEER BLOCK *Formulated to provide essential supplemental nutrients and minerals needed by deer.*

CORN-LIX DEER BLOCK *Formulated to supplement natural vegetation by providing essential minerals and energy necessary for maximum growth, bone and antler development and reproduction in deer.*

GAME BIRD & FOWL BLOCK *Designed especially for the needs of wild fowl. Made with wholesome grains, minerals and vitamins critical for growth and egg production, Sweetlix provides essential nutrients.*

ALL-IN-ONE FOR SHEEP & GOATS

SHEEP & GOAT BLOCK

Sweetlix All-In-One is a convenient highly palatable free-choice protein, mineral, vitamin and supplement block all in one for sheep and goats. This block is specifically designed to supplement small ruminants consuming low quality forages and allows for optimum growth and reproduction. Ideal in situations where copper is a concern when species are co-mingling.

INTRODUCTORY PERIOD:

Following a seven to 10 day acclimation period, average consumption should be 50 to 100 g for sheep and goats with unrestricted forage supplies. Position the blocks 15 to 25 meters from loafing, feeding and watering areas. Some repositioning of blocks may be necessary as animals become acclimated to the presence of the blocks. Move blocks closer to increase consumption: further away to decrease consumption. If over consumption occurs for more than two weeks and repositioning of blocks does not correct the situation, remove blocks and evaluate the overall feeding program. **Do not allow starved animals free access to this block.**

FEEDING DIRECTIONS:

Feed at a rate of one block per five to ten heads. All animals should have equal access to blocks. Timid and smaller animals need their share. Place the blocks where animals congregate. Locate blocks throughout the pasture at loafing, grazing and watering areas. Adequate distance must be maintained between blocks to prevent crowding (three metres minimum). Feed blocks continuously along with plentiful sources of forage and clean, fresh water. Animals should not run out of blocks. When a block is two-thirds consumed, provide a new block near it. Place very small pieces in a feed pan or trough to be cleaned up. Sheep and goats should consume 50 to 100 g per head daily. Consumption of this block may vary depending upon animal body condition, quality and quantity of forages, seasonal weather conditions, and most importantly, feeding locations of blocks with respect to loafing, grazing, feeding and watering areas. Feed as the only free-choice source of salt, other minerals and vitamins.

**Net Weight 15 kg
Product #: 815994**

FEATURES & BENEFITS:

Highly palatable supplement block for sheep consuming low quality forages

Specifically designed to supplement small ruminants. Optimum growth and reproduction.

Protein, vitamin, and mineral supplementation in one product. No additional sources of salt or minerals required

Delivers 20% Crude Protein from all natural sources. Ideal for all classes of sheep.

Convenient. Easy to handle 15 kg block.

Weather-resistant block. Requires no special feeders or bunks.

NOTE:

Store blocks in a cool, dry area away from rodents and insects.

This feed contains added Selenium at 6.2 mg/kg.
